

An Intertek Expert Services Seminar

MOSH/MOAH

Migration of mineral oil from packaging materials to foodstuffs

Amsterdam, Netherlands, 22 June 2011

Intertek Expert Services is pleased to invite you to this seminar.

Event summary

- History & scientific background of MOSH/MOAH issue
- European Authority's view to this subject
- Analytical testing aspects
- Toxicological aspects
- Impact on food packaging production

Why participate?

Foodstuffs like rice, cereal, pasta but also deep-frozen food are very often boxed in cardboard made of recycled paper. More and more these packaging are getting the attraction of the public due to their potential hazard to the consumer's health.

Findings of investigations by the Swiss canton laboratory in Zurich showed that this kind of cardboard may contain significant amount of mineral oils coming from the printing inks of recycled newspapers. These substances (MOSH – mineral oil saturated hydrocarbons and MOAH – mineral oil aromatic hydrocarbons) have the capability to migrate from the packaging onto the foodstuffs finding their way via consumption into the human body. This seminar gives you the opportunity to learn from the experts about their views on the impact of mineral oil on product and in the end on consumer safety. The different parts of this seminar provide an insight into the corresponding scientific background, the most appropriate analytical methods, a toxicological view and the impact on food packaging producers.

A Q&A session is provided to give enough room for your most burning questions about the migration of mineral oils from packaging materials to foodstuffs.

Language

The workshop will be conducted in English with simultaneous translation in French.

Who should participate?

This seminar is for an audience involved in the production of foodstuffs and food packaging as well as for retailers selling these products.

MOSH/MOAH
**Migration of mineral oil from packaging materials
to foodstuffs**

Amsterdam, Netherlands, 22 June 2011

Agenda

Wednesday, 22 June 2011

9:00 Registration and Welcome Coffee

9:30 Opening Session and Intertek Expert Services overview - *Bernard Leroy*

9:45 Introduction on MOSH-MOAH - *Dr. Jürgen Towara*

10:00 History of the case; point of view of an enforcement laboratory - *Dr. Koni Grob*

10:45 Coffee Break

11:15 Analytical Testing - *Dr. Armin Hauk*

12:00 Toxicological Aspects - *Dr. Nigel Baldwin*

12:45 Lunch

14:15 Impact on packaging production - *Dr. Wilfried Wijnants*

15:00 Q&A session with Outlook - *Dr. Jürgen Towara*

15:20 Wrap up - *Bernard Leroy*

Speakers

Bernard Leroy

President Consumer Goods
Intertek Europe

Dr. Jürgen Towara

Senior Food Contact Expert
Intertek Expert Services

Dr. Koni Grob

Kantonales Labor Zurich

Dr. Armin Hauk

Head Trace Analysis
Intertek Expert Services

Dr. Nigel Baldwin

*Director, Scientific and Regula-
tory Consulting Europe*
Cantox Health Sciences Interna-
tional

Dr. Wilfried Wijnants

Group responsible for
Food Safety
Van Genechten Packaging
